Wyvern Business Systems

Wyvern Business Systems is an assistive technology supplier that supports school pupils and university students with learning difficulties, and supplies hardware, software, service and repair, and training, whilst it also has a commercial IT division. The company has a comprehensive online assistive technology software training portal for students, which is designed to help them with any query they have about using mainstream assistive technology software.

Our Brief

We were asked to help Wyvern Business Systems make its online training portal and company website accessible to the growing numbers of students in the UK who don't speak English as a first language.

Our Solution

We added the Recite Me custom tool bar to Wyvern Business Systems website so that users can quickly and easily adapt the website the way they need it to work for them. Users can now translate the content into over 100 languages at the click of a button.

15%

of people worldwide
have dyslexia or
learning difficulties

8%

of people living in the
UK have English as an
additional language

3%

people in the UK
have significant
sight loss

Cloud Based

Our suite of tools is run from the Cloud so there is nothing for you to install or download.

Legal Compliance

Our software helps you anticipate the needs of all your website visitors.

Customisation

Our software gives users the ability to customise the website to best suit their needs.

“

“Recite Me has many benefits for us and is a great tool. It’s essential for us because our online training portal is aimed at students, many of whom don’t speak English as their first language. Recite Me can now translate the training portal content into over 100 languages to make it accessible to everyone. Also, we think our company has a lot of empathy for people with learning difficulties and Recite Me is great because it makes our website and online portal fully accessible to them.”
